- ✓ Open for access 7 days a week

WODONGATAFE
Building success through learning

Wodonga TAFE’s Logic Campus features our very own motorsport complex.

The 1.6 kilometre-long and 11 metre-wide driver circuit adheres to CAMS industry and safety standards.

The circuit is available to hire for both commercial and private use, whether you want to have a competitive track event, launch a new product, host a training day or just have a bit of fun on the track!

There is ample room at the beginning of the straight to hold your Motorkhana or Khanacross event. The 4WD and off-road area is nearby for those more dirt-inclined.

All facilities and buildings surrounding the track are also available for use and hire. This includes an automotive workshop, as well as classrooms and conference rooms appropriate for corporate functions, training sessions and meetings.

Our motorsports and 4WD facility is also home to Motorsports Training Australia (MTA) which provides training to students interested in gaining motorsport and automotive technology qualifications. Please contact MTA for more information and to book your event.
